+ Mattifying effect

Description

This funny paste can be, thanks to its thick and original texture, modeled before spreading generously on the face. Formulated with Emulium® Illustro, containing a high amount of powders, this mask leaves the skin clean, soft and protected from screen light thanks to EnergiNius®.

Specifications

- + Aspect:
Green thick paste

Ingredients

- **Compritol® 888 CG ATO** is a thickening agent used to increase thickness and bind powders.
- Mica is a powder used in replacement of talc to mattify the skin.
- Magnesium Stearate and Lauroyl Lysine are powders which bring softness without drying the skin.
- Schercemol Disd Ester and Lanol 99 are emollients which are used to bind powders and improve spreadability of the formula.
- **Emulium® Illustro**, at 1.2%, is a W/O emulsifier which is used as a binding and stabilizing agent.
- Glycerin is a moisturizing agent which is used for its binding properties.
- Sucrose Laurate is used to improve rinsing.
- **EnergiNius™** is a clinically tested active ingredient which boosts cellular energy and protects the skin from screen light.
