Operating instructions

- Under mixing, add Carbopol® Aqua SF1 OS into water of phase B heated to 70 °C.
- Prepare phase C and homogenize.
- Under mixing disperse phase C into phase B.
- Prepare phase A and heat to 70 °C.
- Under rapid mixing (Rotor/Stator 3000 rpm), add A to B+C.
- Maintain rapid mixing for about 5 minutes.
- Add D and mix rapidly for about 5 minutes more.
- Cool under mixing and at about 35 °C, add the other ingredients.
- Complete cooling.

+ Detoxifying

+ Moisturizing

+ Dry touch

Description

A light green serum with a very light texture, thanks to Emulium® Mellifera MB, and a good spreadability. It provides a dry, soft finish: the skin is left relaxed with a velvety and comfortable after-feel.

Specifications

+ Aspect:
Pale blue lotion

+ pH = 7.0 ± 0.5

+ Viscosity Brookfield (spindle A, speed 5):
approx. 3 100 mPa.s after 24h

Ingredients

- **Emulium® Mellifera MB**, at 1.5%, creates a light and pleasant lotion, with a very low residual film.
- **Lipocire™ A SG** improves spreadability and comfort and melts at skin temperature.
- **Acticire® MB** improves sensorial properties by bringing moisturization and comfort to the skin.
- Dimethicone, feeling agent, gives slip upon application.
- Glycerin, at 33.15%, provides great moisturization.
- **Mala'Kite™** is a detoxifying agent that also gives its natural blue color to the formula.
- Modified Corn Starch, at 9%, allows a soft, dry touch upon application.
