Phase	Name	INCI	Supplier	%
A	PLUROL® DIISOSTEARIQUE CG	POLYGLYCERYL-3 DIISOSTEARATE	Gattefossé	3.70
	KAHLWAX 6642	COPERNICIA CERIFERA (CARNAUBA) WAX	Kahl	13.00
	KAHLWAX 6720	SHOREA ROBUSTA RESIN, HELIANTHUS ANNUUS (SUNFLOWER) SEED OIL	Kahl	2.40
	KAHLWAX 6290	RHUS VERNICIFLUA PEEL CERA/ WAX	Kahl	4.90
	HYDROGENATED CASTOR OIL	HYDROGENATED CASTOR OIL	-	1.50
	CETYL ALCOHOL	CETYL ALCOHOL	-	9.40
	LIPOCIRE™ A SG	C10-18 TRIGLYCERIDES	Gattefossé	13.70
	BEESWAX	BEESWAX	-	3.70
	CETIOL® CC	DICAPRYLYL CARBONATE	BASF	20.00
	PRESERVATIVE	PRESERVATIVE	-	0.70
B	BRO-NJE2	IRON OXIDES, JOJOBA ESTERS	Kobo	0.70
C	ACTICIRE® MB	JOJOBA ESTERS, HELIANTHUS ANNUUS (SUNFLOWER) SEED WAX, ACACIA DECURRENS FLOWER WAX, POLYGLYCERIN-3	Gattefossé	3.70
	DEMINERALIZED WATER	WATER	-	6.80
	GLYCERIN	GLYCERIN	-	7.80
	GATULINE® RADIANCE	PROPANEDIOL, EVODIA RUTAECARPA FRUIT EXTRACT	Gattefossé	1.00
	ENERGINIUS®	FRUCTOSE, GLYCERIN, WATER, WITHANIA SOMNIFERA ROOT EXTRACT	Gattefossé	1.00
D	PERFUME ELVIRA 0213544	PARFUM	Expressions Parfumées	0.50
E	COVAPEARL SATIN 931	TITANIUM DIOXIDE, MICA	Sensient	3.00
	SYNCRYSTAL SPARKLING SILVER	SYNTHETIC FLUORPHLOGOPITE, TITANIUM DIOXIDE, TIN OXIDE	Eckart	2.50
				100.0

Operating instructions

- Heat phase A at about 85°C, make sure that everything is melted.
- Add B and mix, heat again.
- Prepare phase C, heat a about 55°C and mix until homogeneous.
- Under rapid mixing (defloculent 2000 rpm), add phase C to phase A+B.
- Continue rapid mixing for about 5 minutes. Then at 60°C under slow mixing, add D and E.
- Continue slow mixing and, at 53°C, pour into the packaging.

Selfie Stick 2032-4.01

- + Highlighter
- + Instant Glow
- + Melting Touch

Description

This natural stick highlighter is ideal to obtain a selfie-ready look. Easy to use, its anhydrous-like texture spreads easily on the cheeks, thanks to Lipocire™ A SG which melts at skin temperature, and leaves a smooth residual film. It provides an instant perfect glow to the skin, with the help of pearlescent agents and Gatuline® Radiance, an active boosting the skin's microcirculation. This product also protects the skin from screen-emitted light, thanks to EnergiNius™, a natural extract of Indian Ginseng roots.

Specifications

- + Aspect:
Pearlescent red/pink stick

Ingredients

- **Plurol® Diisostearique CG** at 3.7% creates a comfortable thick formulation and helps the dispersion of the pigments.
- Carnauba Wax, Beeswax and Cetyl Alcohol help to increase the viscosity.
- Kahlwax 6720 increases the adherence to the skin and the long-lasting effect.
- Kahlwax 6290 is a wax increasing the comfort and softness on the skin.
- **Lipocire™ A SG** is a texture agent with a melting point just below skin temperature, improving spreadability and comfort.
- Glycerin and Cetiol® CC are emollients improving spreadability and moisturization of the skin.
- **Acticire® MB** is a natural texture agent which brings durable moisturization and comfort. It also allows the incorporation of hydrophilic ingredients in anhydrous formulations.
- BRO-NJE2 is a mineral pigment giving color to the formulation, while Covapearl Satin 931 and Syncrystal Sparkling Silver are pearlescent pigments (non natural ones).
- **Gatuline® Radiance** is a natural active enhancing skin radiance and luminosity by boosting skin microcirculation.
- **EnergiNius™** is a natural active clinically tested protecting the skin from screen-emitted light.
